Pittsfield, Mass. — Richard Mastroianni, Lexington St., Agawam, well known area square dance caller, caller for Ludlow S/D/C and Paper Town Pacers, Lee, Mass., and guest caller for clubs in New England and New York has been appointed caller program chairman for the 1968 annual New England Square Dance Convention. The event will be held this spring in Pittsfield, Mass., on April 26, 27, according to an announcement by Clayton Fancher, Pittsfield, Convention Chairman.

This is Pittsfield's second year in winning the bid for the colorful Convention which is expected to attract more than 6,000 square dance enthusiasts. A special shuttle bus service will be used to transport Convention participants throughout the city.

This is the ninth annual Convention and it will be hosted by the Berkshire County Square

Dance Association and sponsored by two regional organizations, the Eastern District Square and Round Dance Association, and the New England Council of Callers Association.

There are more than 400 square dance clubs in New England, with many organized in the Connecticut Valley, and particularly throughout the Western Massachusetts area.

### Pizza Party by Betty Crocker

Who says pizza is only for teenagers? Not my kind of pizza party. While serving refreshments, you start with a beautiful antipasto tray: pimiento olives, celery stalks, small green peppers, curls of cooked ham and smoked pork slices on a bed of watercress. Since your pizza dough and toppings are ready to go (you do them ahead) — now take orders for individual pizzas. Then toss an Italian salad and serve fresh fruit for dessert. Oh, and don't forget, light the candles. In pretty colored bottles, of course.

#### Pizza

- 1 package active dry yeast
- ¾ cup warm water (105 to 115°)
- 2½ cups Bisquick
- ¾ cup chopped onion
- 1 clove garlic, minced
- 1 can (15 ounces) or 2 cans (8 ounces each) tomato sauce
- About 1 cup chopped salami
- Salt and pepper to taste
- 2½ cups shredded mozzarella cheese or 2 packages (6 ounces each) sliced mozzarella cheese, cut into thin strips
- 3 to 4 teaspoons crushed oregano leaves

Heat oven to 425°. Dissolve yeast in warm water. Add Bisquick and beat vigorously. Turn dough onto surface well dusted with flour. Knead until smooth, about 20 times. Allow dough to rest a few minutes. Divide dough into 4 pieces. Roll each piece very thin into a circle, about 10 inches in diameter.

Place on ungreased baking sheets or in shallow pie pans. Mix onion, garlic, tomato sauce, salami, salt and pepper; spread on dough. Sprinkle shredded cheese over all or place cheese strips on top. Sprinkle with oregano to desired amount. Bake 15 to 20 minutes, until crust is brown and filling hot and bubbly. Serve immediately.

**Anchovy Pizza:** Follow recipe for Pizza except — substitute 2 cans anchovies, chopped, for salami.

**Hamburger Pizza:** Follow recipe for Pizza except — prepare topping before making crust and substitute 1 pound cooked ground beef and ½ cup chopped green pepper for salami.

**Pepperoni Pizza:** Follow recipe for Pizza except — substitute 1 cup sliced pepperoni for salami.

**Mushroom Pizza:** Follow recipe for Pizza except — substitute 2 cans (4 ounces each) mushrooms, sauteed in butter, for salami.

## \$950,000 Dining Hall Now Open At Spfld. College

Springfield College has opened its new \$950,000 dining hall capable of serving 2,400 students during a meal period. The one-story structure, financed privately by the college, was built in 10 months as part of a dynamic 10-year construction program. Fully airconditioned, it will replace the existing cafeteria in Woods Hall which could serve

only 950 persons during a meal period.

Interior decoration including carpeting, drapes, and special lighting give the hall the appearance of a large restaurant. A spacious kitchen with all-electric stainless steel equipment provides modern food preparation and storage.

Architect for the project was Alfred P. Casella of Agawam.

## SOCIAL SECURITY Questions and Answers

Nearly half a million older people not previously enrolled have signed up for the voluntary doctor bill insurance under medicare since the start of the current open enrollment period, last October 1, Daniel J. Murphy, Jr., social security district manager, noted today.

Although most older people in the Springfield area are now enrolled in the program that supplements their basic hospital insurance under medicare, some still need to take action by April 1, in order to get the protection, Mr. Murphy said.

Early in February, most of those not yet enrolled for the doctor bill insurance, and for whom the Social Security Administration had addresses, received a reminder letter from the Commissioner of Social Security. Along with the letter was a card for the person to send back, marked "yes" or "no."

Older people not signed up for the voluntary medical insurance who did not receive such a letter and card were urged to get in touch with their social security district office.

Among those who visited the Springfield social security office recently was a 69-year-old man who noted that he had never had a day's sickness in his life until he was rushed to the hospital last November for an emergency operation.

His hospital bill amounted to slightly over \$400, all but \$40 of it covered by his basic hospital

insurance under medicare. But since he had not signed up for the voluntary doctor bill insurance, he had to pay the bills of his surgeon, the anesthesiologist, and his family doctor out of his own pocket. Those bills, he noted, had totaled over \$480.

If he had been enrolled in the medical insurance program, he would have had to pay only \$136—the first \$50 of his medical expenses for the year and 20 per cent of the remainder. Needless to say, he is now enrolled for the medical insurance.

Just about everyone now 65 or over is eligible for the voluntary program, Mr. Murphy pointed out, whether or not they have ever worked under social security, and whether retired or still working.

Those who miss out on this second chance to take the supplementary protection will have to wait another year, and pay a premium that is 10 per cent higher for each full year they they could have had the medical protection, but were not enrolled. And those who wait three years past their first chance to sign up for medical insurance will not be able to sign up at all.

## No Peanut Butter

In countries where the state owns and runs most business enterprises, supermarkets are about as scarce as the whooping crane. Consequently, when the government decides to build a supermarket, it is a monstrous affair and supposedly a grand exhibit of the superiority of state management.

A news story tells of such a market in Warsaw, Poland. It includes a cafeteria, coffee shop, and seemingly acres of showcases in a building that "...looks like a concert hall..." But, an American expecting to find a supermarket American style is due for a shock. Since there is no competition, service depends upon the magnanimity of the government.

In the case of the Warsaw monument to government in business, attempts to please the customers are somewhat limited. For example, the number of shoppers permitted in the store at any one time is restricted for fear of shoplifting. To enforce the restriction, only a certain number of baskets are made available to shoppers. During busy hours, long lines of people wait for the baskets required for entry.

An American diplomat's wife said: "It's got all kinds of jam, many wines, plenty of bread, but just try to find peanut butter." And, of course, consumer "confusion" is held to a minimum as many items are packed in dull brown bags. One wonders if this is the kind of a merchandising system the consumer protectors have in mind for the U. S.

## For The Sewing Set

A portable two-tray sewing chest for young moderns comes in new swinging colors—avocado green, antique gold, azalea pink and bluebell—to blend with sewing room, bedroom or family room decor. It is also available in more crystal and tortoiseshell at national variety department store chains.

The tray compartments were scientifically planned to provide a place for every important sewing accessory. The top tray has spindles for 25 spools of thread. Labels molded into the sturdy plastic show how to organize buttons, bobbins, tape measure and scissors. The rounded bottom of the pin section makes it easy to slide out pins and needles.

The second tray has movable partitions to accommodate slide fasteners, snaps and bias tape. The bottom of the straight-sided chest allows ample room for pattern, fabric or knitting yarns. The recessed handle folds away for storage.

Forty million home sewers, including ten million teenagers, have put home sewing on the upswing. New pattern sizing and bonded fabrics make sewing and fitting easier and faster. High school student enrolled in sewing courses and mothers in adult education will find this Wil-hold chest convenient for carrying projects to and from class.

Homemakers will discover dozens of uses for it besides sewing — baby needs, small toys, art needlework, crafts, beach supplies and for overnight. That is, if father doesn't get it first for fishing tackle or workshop. This versatile chest is manufactured by Hugh H. Wilson Company, Sunbury, Pa.

## Strawberries Grow In Home Gardens

UNIVERSITY PARK, Pa. — Strawberries in small plantings provided families with delicious fruit in daily fresh supply. They're the first fruits of the season in home gardens.

According to a Pennsylvania State University correspondence course on small fruits, strawberries take less time from planting until an edible crop is ready than any other fruit. And a total crop failure is rare.

Strawberries grow wild in most parts of the United States. Improved varieties easily adapt to a wide range of soil types and produce fruit without great care.

In vitamin C content, strawberries are second only to the citrus fruits. Thus, they contribute to a complete diet.

With favorable soil and climate and plentiful labor at harvest, strawberry growing is a profitable business.

Study the Penn State correspondence course to learn more about strawberries and other small fruits. Anyone can enroll by sending his name and address with \$2.50 to Small Fruits, Box 5000, University Park, Pa. 16802. There are no other charges and a complete course copy comes to you by mail.

## FASHION GOES "TO WAIST" THIS SPRING

### Belts Are "In" Again, Defining New Waistlines

**THE BELT'S THE THING.** There's no question about the importance of waistlines and the belt for Spring 1968. Designers here and in Paris are focusing on the waistline. Sure way to eliminate costly alterations in fitting waisted fashions is to sew your own. Singer experts point out that you can lengthen or shorten, widen or narrow a waistline easily by altering the pattern before you cut into your fabric. Shining examples of the flattery of new belted fashions pictured above. Left: newest suit look — longer-jacketed, AND belted. Creamy beige and chocolate brown tatter-sall check in a wool-like Acrylic. Simplicity Pattern 7480. Make it for about \$12.00. Center: The teeny-waisted, belted, bouncy-skirted look is here again. Dress and jacket, in a knitted rib of textured polyester, cost about \$26.00 to make. Simplicity 7438. Right: The shirt dress is back in a big way. Here in the newest version — classically detailed, wrapped with a wide belt to define the waist. In dacron-and-rayon gabardine. McCall's Pattern 9107. You can make this for only \$7.50! Fabrics and patterns available at Singer Centers where fabrics are sold.

#### SPRING PROGRAMS

On Tuesday or Wednesday starting April 2nd there will be a special Gym program for boys and girls in grades 3-6. This is a Fun-Nastics program which involves games, gym activities and just plain fun.

#### TWO BIG TRIPS

On April 16th and 18th there will be two trips held by the Agawam YMCA for grades school

#### On The Lawn

##### With LARRY LAWRENCE

I occasionally run into someone who says "Feed the lawn? Not me. Why should I make the grass grow taller when I'm the one who has to cut it? Now if they had a fertilizer that made grass grow THICKER I might be interested."

Let's examine all that. To begin with, the chief thing that distinguishes a lawn from a hayfield is that a lawn is kept cut. Cutting produces that fresh, bright green color that comes only with new growth. A lawn grass that never needed cutting would be drab looking indeed.

Now about having a thicker lawn. This is precisely the function of the right fertilizer. You may have noticed that one lawn fertilizer is currently advertising that "it makes grass multiply itself." And that's not just a figure of speech but a description of what takes place. Turf Builder causes the grass plants to send out side shoots (called tillers) and new rootstock (called rhizomes). The former add leaves to the existing plant. The latter produce fill-in plants. And so the lawn gets thicker in two ways. The grass actually multiplies itself.

The man who doesn't feed a lawn adequately or cut it often enough would be surprised if you told him he was following a program, but that's what he's doing. It's the perfect program for encouraging weeds.

boys and girls. One trip will be to the Higgins Armory and the second trip will be to Mystic Seaport Conn.

#### JR. HIGH SCHOOL DANCE

Friday, April 5th, there will be a dance for Junior High School boys and girls at the South School. Boys apparel, ties and jackets. Dance is 7:30 to 10:00 p.m.

For further information on above programs call "Y" office, 733-9676.

#### Cured Meats

Many people wonder if cured meats — ham, bacon, etc. — can be frozen. These products will freeze satisfactorily but should not be kept as long as fresh meats that have been frozen. This is because the salt content promotes rancidity. Consequently suggested limits on freezer storage are three months for bacon and five months for ham. Rancidity does not make the meats unsafe to eat but most people would find it unpalatable says Gisela Pass, Extension Home Economist with the Hampden County Extension Service.

#### Maple Tea Cakes

1 cup maple sugar shavings  
1/3 cup fat  
1 egg  
3 teaspoons baking powder  
1/4 teaspoon salt  
1/4 cup sugar  
1/2 cup milk  
2 cups flour  
1/2 cup finely chopped English walnuts

Cream the sugar and fat and add the well-beaten egg. Sift the dry ingredients together and add alternately with the milk. Bake in small muffin tins.

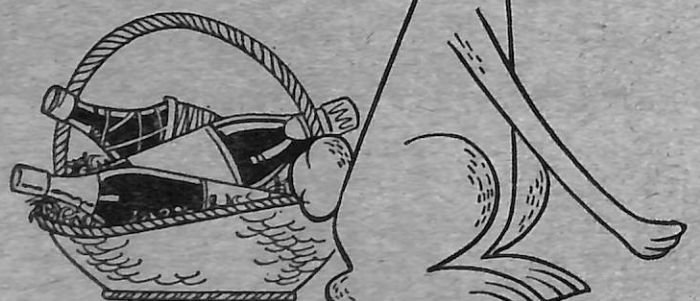

Bobcats live in a wider variety of habitats than most wild animals: on mountain slopes and deserts, in pine forests and swamps. They have been seen at 11,000 feet elevation on Mt. McKinley and in Death Valley, the Mass. Audubon Society says.

## At Your Service

EUGENE H. LUND  
Director of Veterans Services

More than 1,620,000 pieces of mail flow through the Boston office of the Veterans Administration each year and far too many cannot be properly identified, the Veterans Administration said today.

Too many veterans and their beneficiaries only sign their names to correspondence, and names are not enough.

Almost all of the 251,000 names in VA's master index file in the Boston office are duplicated. For instance there are 2,560 Smiths on file and 80 of these are John Smith. The Johnsons number 1760, and, contrary to popular belief, the Williamses with 1500 outnumber both the Browns, 1250, and the Joneses, 1000.

Each veteran who applied for VA benefits is assigned a file number. This file number and the number assigned to a veteran's insurance policy are never duplicated.

When these numbers are used in correspondence, prompt and efficient service is almost certain, VA said.

When neither of the numbers is included in a letter, the VA often must respond with a form letter requesting further identifying information from the correspondent.

The form letter requests the veteran's full name, date of birth, social security number, branch of service, dates of service, military service number and, if possible, the file number or insurance number.

VA advises, that if you don't know your claim number or insurance policy number, include as much identifying information as possible. Then VA will be able to give the prompt service you like and they like to give.

Also, Massachusetts veterans should write to the VA Regional Office, John F. Kennedy Federal Bldg., Boston 02203; not to the VA Central Office in Washington, D. C.

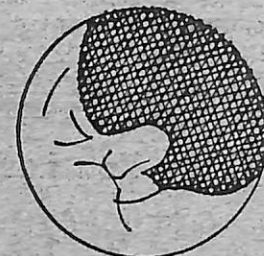

## Spicy Baked Ham With Peaches

1/2 whole ham (about 5 pounds)  
1/2 cup maple syrup  
1/4 teaspoon ground cloves  
1/4 teaspoon ground cinnamon  
1 can (1 lb. 13 ounces) yellow cling peach halves, drained.

Trim rind from ham. Wipe with clean damp cloth and place in shallow baking pan. Start baking in slow oven (325 F.) 22 minutes per pound. When ham is half done, drain off drippings. Combine syrup and spices in saucepan. Simmer 2 minutes. Pour spiced syrup over ham and continue baking, basting every 15 minutes. Place peaches around ham during the last 15 minutes of baking. Baste peaches with the spiced syrup. Makes 8 servings.

## IT'S BIRTHDAY PARTY TIME

A birthday is coming up, so it's to be a gay party for the girls and boys. Every child thrills to see his very own name in print . . . and on a birthday cake their delight is a pleasure to see. Use a simple cake from your favorite recipe or mix. Plan to serve ice cream, of course, and perhaps a little Bosco poured on top. Here's the frosting recipe.

### LEMON CREAMY FROSTING

½ cup Nucor margarine  
½ cup light corn syrup  
¼ teaspoon salt

1 tablespoon lemon juice  
3½ cups sifted confectioners sugar  
1 teaspoon grated lemon rind  
Food color  
Mix margarine, corn syrup, and salt blending well. Stir in lemon juice and confectioners sugar alternately, beating until smooth and creamy after each addition. Add enough lemon juice to make a good spreading consistency. Stir in grated lemon rind. Take out about ½ cup and tint for decorating. Frost cake sides and top. Using a pastry tube pipe on decorations.

## 'Queen' at Pier J

Long Beach, Calif.

It is likely that when the former Cunarder Queen Mary is opened to the public in the spring of 1969 here, tourists will be able to see more of the liner than some of its passengers ever did.

When the Queen steamed into the local harbor last Dec. 9, a new era began for the proud

vessel. No voyage to the ship-breaker for her! Now undergoing conversion, the liner will play hostess to visitors from all over the world as a floating museum, hotel, and convention center.

On Pier J, new home of the Queen, a 5,000-boat marina is being constructed, as well as a complementary aquatic complex of restaurants, motels, and yachting-supply shops and facilities.
